

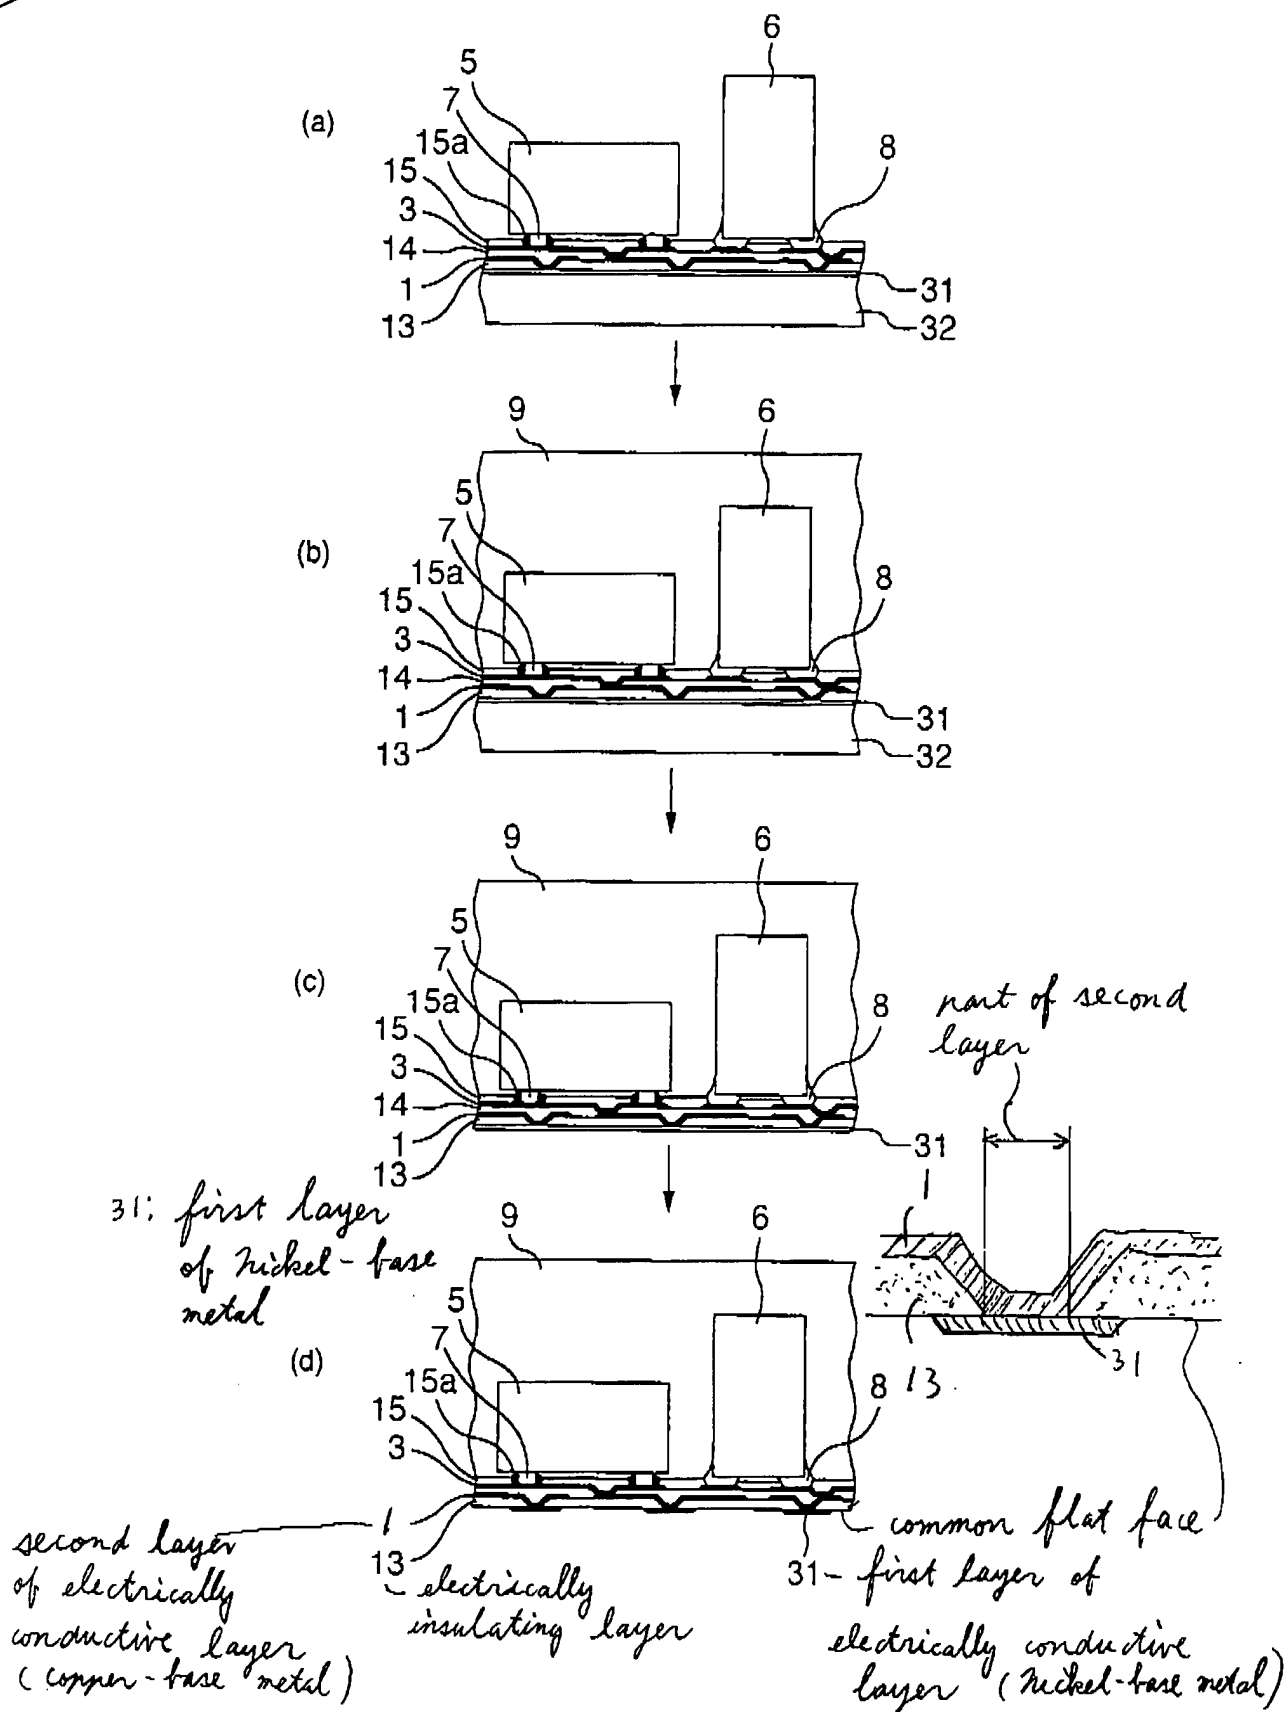

FIG.19

Surfaces of electrically insulating and conductive layers 209 & 232

U.S. Patent

May 28, 2002

Sheet 10 of 12

US 6,396,148 B1

prevented from facing to electric element
do not extend along common flat face.

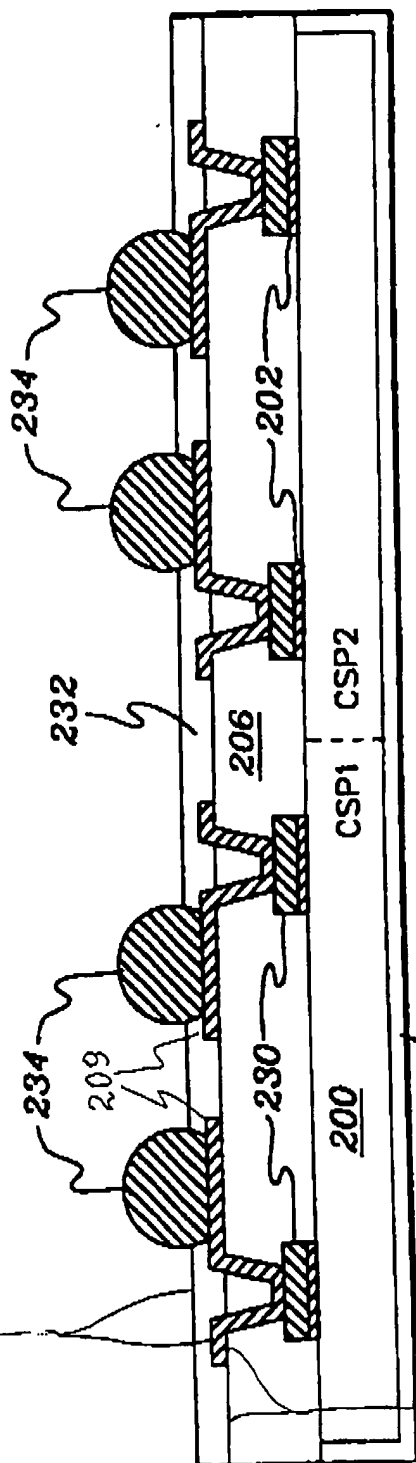

fig. 6C

Surfaces of electrically insulating and conductive layers 209 & 232

facing to electric element
extend along common flat face.
